Professional Summary

Backend and AI-focused Computer Science undergraduate with hands-on experience building scalable APIs, AI-powered systems, and cloud applications. Proficient in FastAPI, Python, SQL, and Linux. Delivered 10+ production-ready backend solutions. Seeking a Backend or Software Engineering internship to develop high-impact scalable systems.

Education

Central University of Jammu

B.Tech in Computer Science and Engineering

CGPA: 8.0/10

Jammu, India

Aug 2023 – May 2027

Experience

Backend & AI Development Intern

Self-Driven Projects / Freelance

Jan 2024 – Present

Remote

- Built 10+ scalable RESTful APIs using FastAPI, JWT authentication, and MySQL/PostgreSQL to support concurrent users.
- Enhanced backend performance by streamlining request handling, resulting in significantly reduced API latency.
- Deployed and managed multiple applications on Linux VPS using Docker and cloud infrastructure.
- Engineered AI chatbot systems and automation platforms for intelligent conversational workflows.
- Designed modular backend architectures that improved scalability and accelerated deployment cycles.

Microsoft Technology Virtual Internship

AICTE Supported Program

Jan 2024

Remote

- Completed comprehensive training in cloud computing, backend systems, and modern deployment practices.

Infosys Springboard Backend Internship

Virtual Internship

Jan 2024

Remote

- Acquired hands-on knowledge of REST API development, database management, and scalable system design.

Projects

TeleDrive — Cloud Storage Platform

Telegram API based Cloud Solution

- Engineered a secure backend cloud storage system for file upload, retrieval, and management.
- Developed high-performance REST APIs capable of handling concurrent file operations.
- Successfully deployed on VPS and validated through real-world testing scenarios.

API Marketplace & Subscription Billing Platform

- Designed a complete SaaS backend platform with wallet, subscription, and billing management.
- Implemented secure user authentication, usage analytics, and automated billing systems.

AI Chatbot API Platform

- Created a production-grade AI chatbot backend supporting scalable conversational workflows.

- Architected modular FastAPI services for efficient prompt processing and response generation.

Backend Automation Suite (FastAPI + MySQL)

- Implemented robust REST APIs with authentication and real-time data processing features.
- Optimized architecture to efficiently support multiple concurrent users.

Flutter Mobile Applications (Netflix UI Clone & AI Apps)

- Developed cross-platform mobile applications with Firebase authentication and backend integration.
- Delivered responsive UI with excellent performance across Android devices.

Technical Skills

- **Languages:** Python, SQL, JavaScript, C++
- **Frameworks & Tools:** FastAPI, Flask, REST APIs, JWT, Docker, Git, Linux, Flutter, Firebase
- **Databases:** MySQL, PostgreSQL
- **Other:** VPS/Cloud Deployment, API Development, Backend Architecture, System Design

Achievements

- GATE CSE 2026: All India Rank $\approx$ 7000
- JEE Main 2023: 94.3 Percentile
- Qualified JEE Advanced 2023 and NTSE Stage-1
- Selected for Super 100 Haryana Government Initiative (3rd Batch)

Certifications

- Microsoft Technology Virtual Internship
- Infosys Springboard — Backend Development
- AI and Cloud Computing Certifications
